

Connecting to a Reporter with iCVNet

Connecting to a Reporter with iCVNet

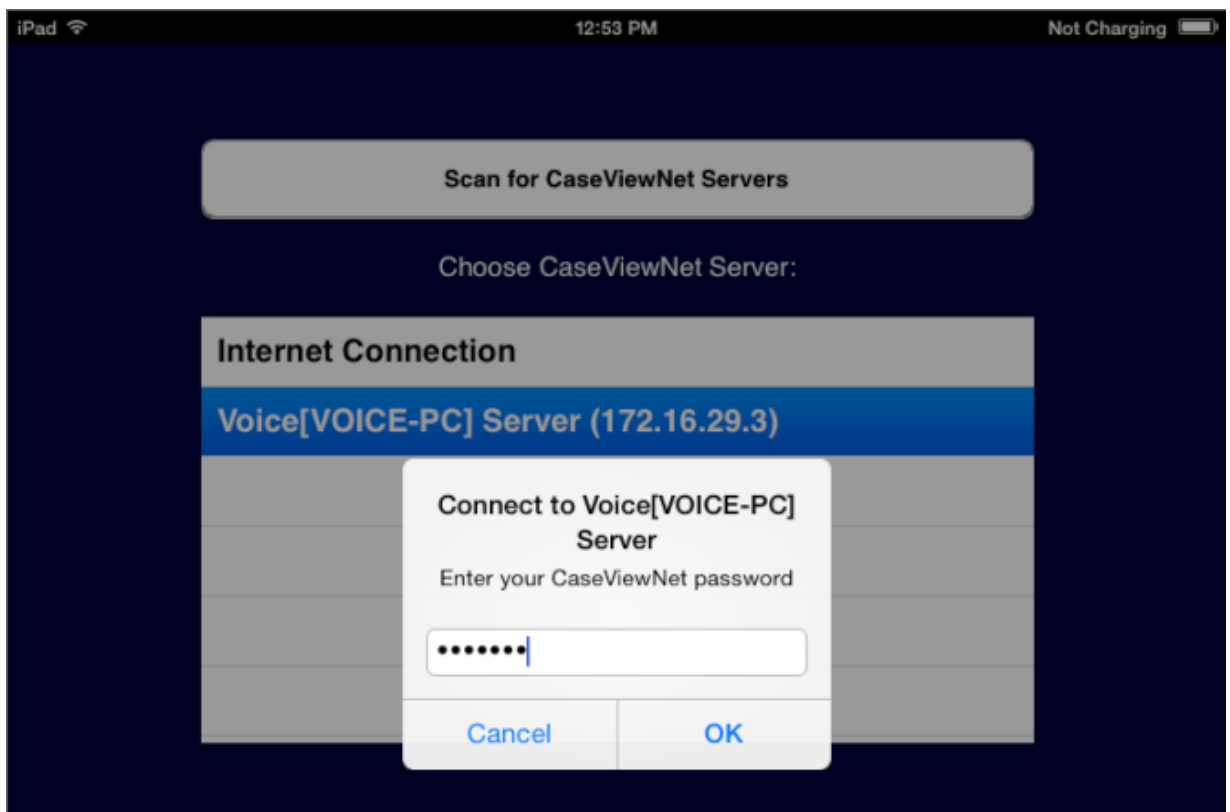

1. Open the iCVNet app and tap the **Connect** button in the upper left corner.

2. In the Choose CaseViewNet Server box, tap on the reporter's server the Connect.

3. Another box will open asking for the CaseViewNet password. The password will be provided by the reporter. Type the password provided by the reporter then press **OK**.

4. The box will go away and return to the opening screen. You'll begin to see text appear from the reporter's computer.

Troubleshooting Tips:

- If you are not receiving the feed verify you are connected to the correct network.
- Check the password. The password is case sensitive.
- Turn off the iPad and turn it back on.
